The approach of pay day has become e absorbing topic among the Cuban rs at Cambridge. It is hailed with hem this month, perhaps more than it wer did before, and Treasurer C. F. Adams of Harvard cannot get out his pay rolls and get things moving too quickly to suit them.

Trip to Westwood.

Yesterday afternoon the third party of Cuban teachers visited Green Lodge, Westwood, on a scientific mission. The special train from Boston brought 171, the lady teachers numbering 45. The party was in charge of Mr. George W. Pierce, as business manager, and Mr. C. W. Mann, the manager-in-chief of the Cuban teachers, was also present.

The visitors on their way to the upland were saluted and welcomed by Mr. and Mrs. Washburn, and the family from the plazzas of the homestead, and were soon located in front of the lovely pine grove at the summit of the hill, and proceeded to business. Instructors Stone, Allen and King, with Interpreters De-Moreira, Lavandera and Carleton, took charge of the three groups.

The specific lesson was that of glacial action upon the valley, or, as Professor Jefferson puts it, "valley carving." The first movement was the draft by all of a cross section of the valley from Green Lodge upland to the Blue Hill opposite. This was commendably executed. The lecturers and interpreters then took up the theme and questions and answers followed.

Dear Sir: —I find that
Abbey's Salt affords a
very refreshing drink,
and, taken as directed,
an effective laxative.
The fineness of the
granules is another
point in its favor, allowing it to be taken while
effervesting without
yarticles of Salt undissolved entering the
mouth. I found it also
beneficial in a certain
case of headache.

Respectfully,

Dr. F. L. Wisse.

The eighth in the series of dances given by the Catholic societies for the teachers

At the close the party crowded around Mr. Washburn's carriage, and on learning that the Cuban flag above them had been flung to the breeze by Mr. Washburn at the outbreak of the Spanish War and was not hauled down until Cuba was freed from Spain's shackles, their enthusiasm was unbounded. Then, with uncovered heads and emotional voices, they sang the Cuban national hymn.

Mr. Washburn responded in stirring words, assuring them that America believed in Cuba and would redeem the solemn piedge of the complete political independence of that lovely Island. These
